WOC VOLUNTEER PILOT MINIMUM REQUIREMENTS

1. Provide transportation at no cost to Wings of Compassion passengers

2. Hold at least a private pilot's certificate and current medical certificate

3. Provide proof they are properly licensed and certified by the Federal Aviation Administration by submitting to WOC a photocopy or digital scan of pilot certificate, government-issued I.D. and medical certificate upon application

4. Provide a digital passport-type photo with volunteer pilot application to create an WOC Volunteer Identification Badge

5. Agree to abide by all applicable Federal Aviation Regulations

6. Own or have access to an airworthy aircraft (as defined by Federal Aviation Regulations)

7. Provide proof of maintaining at least $1 million total with $100,000+ per seat liability insurance

8. Have logged 250 hours Pilot in Command (PIC) Time and 500 hours Total Time. The total time requirement may be waived if the pilot holds a commercial rating

9. Have logged 25 hours in make and model for single-engine, and 50 hours in make and model for multi-engine/turbo-prop/jet

10. Instrument rating desired, but not required

11. Filing and activating an IFR Flight Plan—or—a VFR Flight Plan and using Flight Following is strongly desired on all flights with WOC passengers on board

12. New volunteer pilots must complete WOC's Volunteer Pilot Orientation Program prior to accepting flights

13. Fly at least one WOC flight within 24 months to remain on the active roster. If not meeting this requirement, they must repeat the WOC Volunteer Pilot Orientation Program to return to the active roster

14. Obtain a signed Liability Release Form from each passenger and mail/fax/email to the WOC office prior to each flight leg

15. Annually reaffirm online that they meet all requirements and update all applicable information to remain on the active roster

16. Self-verify that they meet all requirements prior to receiving information about each flight
